Sadia Zaman

FULL-STACK DEVELOPER

Dhaka, Bangladesh | +8801606274728 | sadiazaman485@gmail.com
GitHub | LinkedIn

CAREER OBJECTIVE

Full-stack web developer skilled in React.js, Next.js, Node.js, and modern web architectures. Looking to contribute hands-on development experience, modular UI engineering, and secure API implementation to deliver high-quality, scalable digital products.

TECHNICAL & PROFESSIONAL SKILLS

Programming: C, C++, Python, JavaScript
Frontend: HTML5, CSS3, Responsive UI
Backend & Database: Node.js, Express.js, MongoDB
Tools & Deployment: Git, GitHub, VS Code, Bash/Shell, Netlify, Vercel
Hardware: Arduino Nano, MAX4466 microphone amplifier module, hardware integration
Professional: Communication, Research, Leadership, Teamwork, Problem-solving

PROJECTS

SilentAlert Demo | GitHub Repo
A noise-monitoring prototype designed to help maintain quieter environments in libraries, classrooms, and laboratories.

- Integrated Arduino Nano with a MAX4466 microphone amplifier module for hardware-based sound-level monitoring.
- Organized monitoring around silent zones and configurable noise thresholds.
- Dashboard concepts present noise readings, threshold comparisons, zone status, and alerts when readings exceed limits.
- Includes a reporting concept for reviewing noise readings and alert activity.

Gatherly Demo | GitHub Repo
A web project focused on presenting event information and helping users explore and manage event listings.

- Event-focused interface with event cards and individual event details.
- Structured presentation of event information for clear browsing and discovery.
- Designed as a foundation for event creation and management workflows.

SubSphere Demo | GitHub Repo
A subscription-box-style web project focused on oil products and product-card interactions.

- Displays oil-product offerings using structured product cards.
- Includes an add/remove-style product interaction or management flow, according to the implemented behavior.
- Organizes product information to make available offerings easier to browse.

EDUCATION

Manarat International University — BSc in Computer Science & Engineering | Final Year | Expected April 2027
Jahangirnagar University School & College — HSC, Science | 2022

ACHIEVEMENTS, RESEARCH & EXTRACURRICULAR ACTIVITIES

- 4th Place in the Manarat International University Programming Club contest; team: Pixel Jester.
- AI4U—Advanced to Phase 2 of an AI hackathon.
- Programming Hero Campus Ambassador: Volunteer at HeroUnion 1.0 and HeroUnion 2.0.
- Ongoing thesis research related to artificial intelligence and large language models (LLMs).
- AI-related research abstract accepted for conference presentation.
